PigeOff

THE Urban Pigeon Deterrent System

Anja Škrlj - Filippo Zanei - Teun Boekholt

Data

- Infrared/radar (Low-power)
- Mic (High-power)
- Motion detection / camera could also be considered

Learn & Act

- Learn if a bird is in a location it shouldn’t be in
- Deter by playing an infrasound noise

But most importantly:

Constraints

- Battery (1 week):
  - easy to switch
- Durability
- Stability
- Noise robustness
- Latency (< pooping time)
